

Mine Engineer

GlobeStar Mining Corporation, through its wholly owned subsidiary, Corporación Minera Dominicana, is seeking qualified candidates for the start-up of the first new copper mine in the Dominican Republic.

Reporting to the Mine Engineering Lead, this position will be responsible for mine engineering activities with respect ore reserves, mine planning and mine scheduling

- .Open Pit Experience 1-2 Years
- Mine Planning 1-2 Years
- Mine Scheduling 1-2 Years
- Knowledge of principles and practices of mining engineering
- Able to research and analyze information of considerable difficulty and draw valid conclusions
- Strong computer skills with experience in AutoCAD, Micromine, Microsoft Office, GIS systems and databases would be an asset
- The successful applicant will have strong communication skills and the ability to multitask in a changing environment.
- Ability to develop and maintain awareness of occupational hazards and safety precautions.
- Skilled in following safety practices and recognizing hazards

This position offers an individual the opportunity to be part of a start-up of a mining operation in the Caribbean. The location is near the town of Maimón in the Dominican Republic. Initially, we are seeking a one year contract with the possibility of a full time position.
